Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 –3 and 5-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Ogino (U.S. Patent No. 5,206,761). Ogino teaches a rear projection screen comprising a main screen lenticular lens sheet made up of two lenticular lens sheet members having respective edges which are bonded to each other at a junction plane and a diffusive sheet behind the main screen. A second lenticular lens sheet is positioned between the first lenticular lens sheet and the diffusive screen. The applicant is directed to review figures 1 and 19 as well as column 1, lines 35-36, and column 3, lines 42-50 for examples.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2851

Claims 4, 7 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ogino (U.S. Patent No. 5,206,761) in view of Sakunaga (U.S. Patent No. 5,186,780) or Okada (U.S. Patent No. 5,121,252). Ogino teaches the salient features of the claimed invention except for the junction being off center and the junction being at a trough. Both Okada and Sakunaga teach lenticular lenses which are created by bonding adjacent sections at every lenticule. Therefore the bonding would occur off center. As can be seen in the figures, the bonding occurs at the troughs. It would have been obvious to one of ordinary skill in the art at the time the invention was made to utilize the features as taught by Okada or Sakunaga for the purpose of arranging the lenses in great precision.

Response to Arguments

Applicant's arguments with respect to claims 1-8 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
